

## Helpful Hints Measurements

When using side wall mount, overlap the opening at least 3 inches on each side and 1 foot above the door opening for a better seal. Therefore, order your door 1 foot taller and 6 inches wider than actual door opening.

When using under lintel mount, order the same size door kit as your clear opening.

- For taller doors, the strips should be heavier and wider.
- Narrow strips are easier to pass through than the wider strips.
- When air movement is a problem, choose the wider strip.
- Fasteners for mounting hardware to the existing building materials are **not** included.

## Other Products Available from Centaur® HTP®

### RAIL FENCING

CenFlex® 5" Flexible Rail

### COATED SINGLE WIRE FENCING

White Lightning® Coated Electric Wire  
PolyPlus HTP® Coated High Tensile Wire

### Kleerflex Strips

- Superior clarity
- Keeps birds, insects and dust out
- Rounded edges help prevent cutting
- Concave to promote a tighter seal
- Non-stick additive to prevent clinging
- Formulated for indoor/outdoor applications, withstanding temperatures from -10°F to 150°F
- Will not discolor in sunlight

### Applications

- Workshops
- Barns
- Sheds
- Garages
- Dog Houses
- Horse Stalls
- Feeders

### MaxBullet® Hardware

The MaxBullet® Hardware features a unique bullet-shaped locking feature for easy snap-on/ snap-off strip replacement. Once the hardware is attached to a door frame, no tools are required to attach strips. Initial hardware installation is 75% faster! Strip replacement is 90% faster! Made from 6061 alloy aluminum (aka - aircraft aluminum).

MaxBullet® hardware comes with a **LIFETIME GUARANTEE.**

### Other Available Products

- Replacement strips
- Replacement hardware
- Bulk rolls (various widths and lengths) for do-it-yourself
- Other strip widths and thicknesses available upon request
